Story blog post – PITCH Part 1: description of chosen project and motivation*

This text must summarise the heart of your research: the project, decision taken, data found, research objective. The maximum character limit (spaces included) for this section is **800 keystrokes**.

O projeto de reabilitação das infraestruturas do ensino está a ser desenvolvido, como verificamos quando visitamos o parque reabilitado da escola Mário Beirão em Beja, também verificamos que as remodelações realizadas no parque irão contribuir beneficemente para o desenvolvimento físico e mental das crianças uma vez que lhes proporcionará a realização de inúmeras atividades que contribuirão para o seu perfil físico mas também atividades que lhes desenvolverão capacidades mentais.

Este projeto pelo que verificamos está desenvolvido da melhor forma e contribuirá para o desenvolvimento físico e mental dos jovens.

Story blog post – PITCH Part 2: description of significant phases of the research*

This text must summarise the discoveries made: refer to text on your blog, the most significant stages of interviews, the key points of your investigations. The maximum character limit (spaces included) for this section is **800 keystrokes**.

As crianças que encontramos tinham idades entre os oito e os dez anos, e estas demonstraram bastante felicidade pela reabilitação do parque, dizendo que agora podem ir brincar para lá mais vezes, que têm muitos mais jogos para se divertirem e que assim é mais fácil de fazerem amigos e de conviverem uns com os outros, uma vez que agora vão muitas mais crianças brincar e podem fazer muitas mais atividades graças aos brinquedos novos que têm.

Concluimos nos que este projeto está a desenvolver a capacidade de companheirismo das crianças também, uma vez que encontramos um maior número de crianças a brincar juntas nesta visita que realizamos do que das outras vezes que entramos e visitamos o mesmo parque

Story blog post – PITCH Part 3: proposals and follow-up*

This text has to summarise your proposals for continuing to follow the project and how you intend to continue to monitor it. The maximum character limit (spaces included) for this section is **800 keystrokes**.

O projeto que escolhemos está a ser desenvolvido, como verificamos através da visita que realizamos. Pretendemos monitorizar o projeto através da realização de visitas mais frequentes, que nos permitam ter conhecimento de se as instalações permanecem em bom estado, como também pretendemos conhecer e visitar outros pontos abrangidos pelo projeto de reabilitação das infraestruturas do ensino para verificarmos se o mesmo está a ser desenvolvido em outras instituições.
