**Story blog post – PITCH Part 1: description of chosen project and motivation\***

This text must summarise the heart of your research: the project, decision taken, data found, research objective. The maximum character limit (spaces included) for this section is **800 keystrokes**.

O nosso projeto, "Dreaming in Alentejo", focou-se no desenvolvimento e promoção do Sleep & Nature Hotel, com o objetivo de destacar a sua combinação única de beleza natural e descanso. A decisão de realizar este projeto surgiu de um interesse coletivo no turismo sustentável e no desenvolvimento regional. Os principais dados que queríamos ter encontrado incluíam a demografia dos visitantes, taxas de ocupação, uso de fundos europeus, entre outros. O principal objetivo de pesquisa foi analisar e apresentar como é que o Sleep & Nature Hotel contribui para o crescimento regional, práticas sustentáveis e envolvimento comunitário através de posts no blog, atualizações nas redes sociais, infográficos e vídeos.

**Story blog post – PITCH Part 2: description of significant phases of the research\***

This text must summarise the discoveries made: refer to text on your blog, the most significant stages of interviews, the key points of your investigations. The maximum character limit (spaces included) for this section is **800 keystrokes**.

Nós não tivemos a possibilidade de fazer entrevistas.

**Story blog post – PITCH Part 3: proposals and follow-up\***

This text has to summarise your proposals for continuing to follow the project and how you intend to continue to monitor it. The maximum character limit (spaces included) for this section is **800 keystrokes**.

Para continuar este projeto planeamos manter as nossas contas das redes sociais atualizadas.
